Do YOU have what it takes to be on the Gold Coast Competitive Team?

Let's find out!

Our Developmental Program has been designed to allow a gymnast to develop/progress at their pace. Some gymnasts progress faster than others. During classes they are evaluated on many aspects of gymnastics.

Let our Competitive Team coaches evaluate your gymnast's current skills to see if they are ready for team. Gymnasts will show the coaches specific skills on all events as well as strength, flexibility and coordination. Team is by invitation only. Unlike our recreational class program where gymnasts may sign up at any time, we limit the number of girls who can be on team.

Gymnasts advance onto the team programs by several avenues:

- Previously on a team program elsewhere and they are evaluated during one of our team workouts and are placed accordingly.
- Girls are advanced thru our Developmental class program. When ready they are invited to workout with the team.
- **Private Team try outs!** Where interested girls will be tested for physical strength, flexibility “core skill elements”, body positions/alignment, spatial awareness, gross and fine motor movements, balance and landing skills. Pre-registration required with a class fee.

At the conclusion of the private our coaches will discuss and review all results. We may find your gymnast is ready to progress to a higher level or they may need further development prior to advancing. We also will share our results with you and your gymnast.

Please note: Team is considered to be a YEAR ROUND COMMITMENT and summer training practices are very important. Please take the time to discuss whether advancing to our competitive team will be something your gymnast and family can do at this time. We will have a “Fast Track” Evaluation period at a later date. Our Two competition season runs from September-November and January-June. When we are not in “season” we are still training!
